### Community Medical Center update regarding the Corona Virus (COVID-19)

Community Medical Center is monitoring the spread of the Coronavirus and the possible impact on our area. All services are available and the hospital is fully functional. CMC is coordinating with the Southeast District Health Department to properly identify and test patients as appropriate.

At this time, there have been no confirmed cases of COVID19 at this facility. Precautions and measures have been implemented to screen patients who are experiencing respiratory symptoms such as coughing, sneezing, and fever. In an effort to minimize exposure to patients and staff, visitor restrictions have been instituted.

Restrictions are similar to those implemented during the height of influenza season.

- Please do not visit if you are experiencing respiratory symptoms such as fever, chills, cough, sneezing, or runny nose.
- No children under the age of 12 unless receiving care.
- Please limit visitors to 1-2 per patient.
- Wash your hands or use hand sanitizer upon entering the facility and as you leave. Hand sanitizer is available at the main entrance and at various locations throughout the facility.

*If you are experiencing respiratory symptoms such as cough, sneezing and fever*

**AND**

*have traveled outside the country*

**OR**

*have been in close contact with a confirmed positive COVID19 patient,*

**CALL**

*your provider so they may assist you with next steps.*

If you are experiencing severe respiratory illness and need emergent attention, please proceed to emergency department. Alert the staff upon arrival if you suspect you have been exposed to the coronavirus.

#### **Phone numbers for your convenience.**
