

## ***My Hospital Story...***

I grew up on a farm near Verdon. I was the 5th of 8 children of Eddie and Esther Fritz and I was the last one born at home. When later siblings were born, they were born at the FC hospital.

Since we could not visit my mother or baby in the hospital, my father brought us to Falls City, lining us up on the lawn in front of the hospital. My mother would come to the big windows in the sunroom and we would wave to her. How times have changed!
