

## ***My Hospital Story...***

On March 26, 1943, Mrs. Donald (Loretta) Baxter and Mrs. William V (Doris) Glenn shared a room in the Maternity Section of the hospital. There were quite a few babies born that week and they ran out of baby beds. Bill Glenn\*, Jr. was born earlier that day and got the baby bed and I was born later in the day and got the dresser drawer in their room.

Once Bill and I started school and we found out we were born on the same day (even though our parents knew it) Bill always referred to me as his twin. Even today, Bill has called or emailed me to wish me a "Happy Birthday Twin".
